

Jaydon Nathan Chua

Vernon Hills, IL • +1 (224) 504-7294 • jaydonchua2026@gmail.com • github.com/jaydonchua8

Objective

Rising senior seeking a **Summer 2026** Software/ML internship. I like taking ambiguous problems and shipping clear, reliable tools—especially at the intersection of **AI/ML** and developer productivity.

Education

Vernon Hills High School — Vernon Hills, IL • Expected May 2026

Relevant Coursework: **AP Physics C, DC Calculus III (Multivariable), AP Chemistry, Chinese II**

Technical Skills

Languages: Python, JavaScript, Java

ML/Data: PyTorch, scikit-learn, XGBoost, pandas, NumPy

Web/Tools: HTML/CSS, Git/GitHub, Jupyter, VS Code

Experience

XPerience Coding LLC — Instructor & Curriculum Developer • 2024–2025

- Taught **100+ students** (elementary–HS) across camps, workshops, and weekend programs in **science** and **advanced coding** (Python, web, data/ML fundamentals, robotics/game projects).
- Designed **project-based curricula**: lesson plans, slides, starter repos, autograder-style checks, and capstone rubrics; mapped outcomes to age-appropriate standards.
- Built hands-on labs (sensors/physics demos, data parsing & visualization, CV mini-projects) that encouraged iteration, debugging, and code reviews.

Swim Instructor & Lifeguard — Vernon Hills High School • 2022–Present

- Taught water safety and fundamentals to ages 5–12; enforced protocols and managed equipment.
- Supported meet operations and daily pool logistics.

Varsity Swimming — Vernon Hills High School • 2022–Present

- Discipline, teamwork, and steady performance through rigorous training.

Leadership

Computer Science Team — President • 2024–Present — Run practices, organize competition lineups, and mentor members on problem-solving and testing habits.

Selected Projects

Recyclable Classifier — PyTorch, CV — Small CNN to classify recyclable materials; dataset pipeline + augmentations; confusion-matrix review and threshold tuning.

Tennis Match Predictor — XGBoost, pandas — Features (Elo, recent form, surface splits); cross-validated and calibrated win-probability estimates.

Thrive2Gethr Ops Dashboard — Web, Optimization — Route optimizer + live KPIs that reduced drive time and spoilage for weekly food rescue.
